

## **SPRINT 3 PLAN**

Product Name: Purrsight

Team Name: J-Team

Sprint Completion Date: Sunday July 20th, 2020

Revision Number: 1

Revision Date: July 15th, 2020

### **Goals:**

1. Set up GET functionality for profiles and feeds
2. Set up POST functionality for new accounts and postings
3. Integrate sitewide authentication

### **Tasks:**

1. As a user I want to have my own profile so that I can see a photo of me, my contact information, and other pertinent info. (SP: 8)
  - a. Profile Card in react-bootstrap
  - b. integrate profile card with backend so appropriate info is shown
  - c. user ID stored in localStorage
  - d. Photo Storage in django
  - e. Photo upload in React
  - f. Authentication-based routing
  - g. Update Profile forms
  - h. Profile is anchored to top of page (always on screen)
  - i. Add in logic in react so that signin {username} != /{username}, edit/create buttons are not shown
2. As a user I want to be able to share my cat photos so that other users can see pictures of my cats. (SP: 5)
  - a. Make the posting card with respective fields
  - b. Add posting card to Profile and Feed pages
  - c. Upload posts using axios
  - d. Store posts using Django
  - e. Add a card for viewing and retrieve using axios
  - f. Send post using Django
  - g. Retrieve multiple posts
  - h. Have page scrolling (load in 10 posts at a time, and bottom have button see more to see another set of 10 posts)

3. As a user I want to see recent photos from profiles I follow so I get to see new pictures.  
(SP: 8)
- a. Follow button for profiles
  - b. Placement for the follow button (placed where the edit button is normally)
  - c. Follow button changes to indicate following
  - d. Send following using Axios
  - e. Update with Django
  - f. Create feed page and load posts by following
  - g. retrieve multiple posts with axios
  - h. send posts to feed using django
  - i. Have page scrolling for feed (load in 10 posts at a time based off list of following users, and bottom have button see more to see another set of 10 posts)

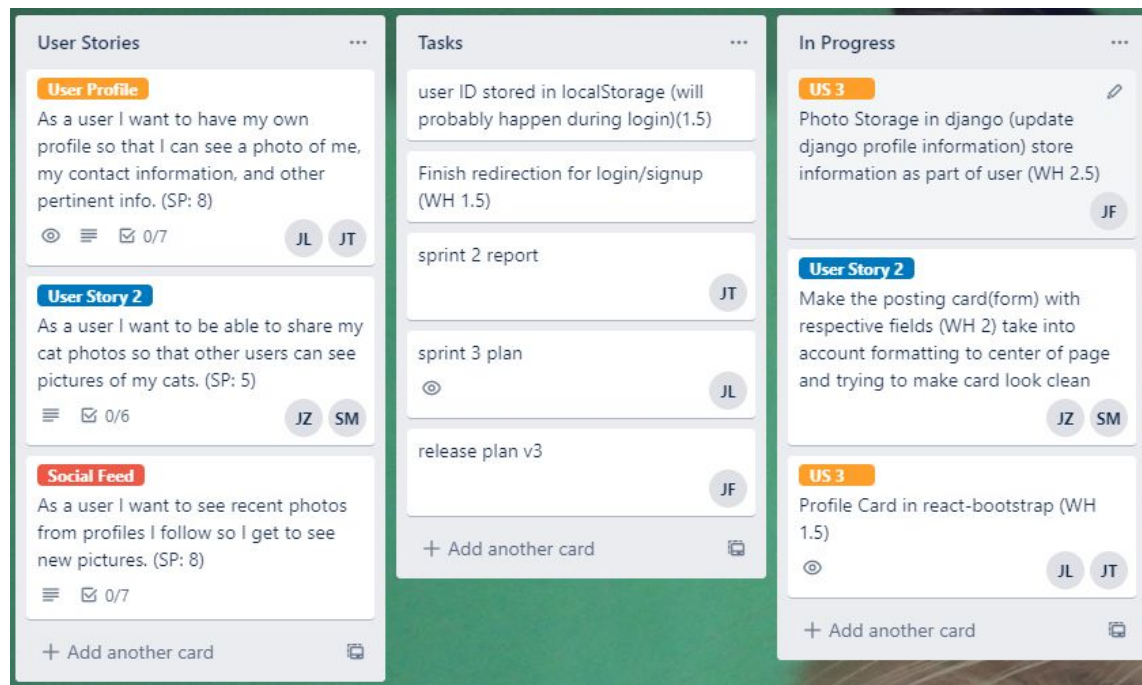

**Team Roles:**

- Product Owner: Jon Zivku
- Scrum Master: Jake Liao
